

Salon~360 Presents  
*A Mini-Fringe Festival*

Benefit Show and Silent Auction

Salon~360 is a monthly, cross-disciplinary hub of artistic, intellectual development, and cultural exchange hosting local and international guests and participants, bringing together: visual artists, business people, scientists, musicians, scholars, activists, and community members in dialogue around pressing societal issues. Through our signature programming, we seek ways to collaboratively and artistically respond to social issues. This performance is our inaugural work.

Salon~360's first annual benefit show explores the five themes of its 2015 season: forgiveness, anger, suicide, humane capacity, and grief.

*Smooth out your hump day and join us for an evening of entertainment and fun!*
